3 c 

4 $\frac{6}{8}$ 

5 $\frac{9}{8}$ 

6 c 

7 $\frac{3}{4}$ 

8 $\frac{6}{8}$ 

9 $\frac{2}{4}$  A horizontal line representing a musical staff with five vertical tick marks spaced evenly along its length. The tick marks are located at approximately 25%, 50%, 75%, and 90% of the staff's length, with a double bar line at the far right end.

10 $\frac{5}{8}$  A horizontal line representing a musical staff with four vertical tick marks spaced evenly along its length. The tick marks are located at approximately 25%, 50%, 75%, and 90% of the staff's length, with a double bar line at the far right end.

11 c  A horizontal line representing a musical staff with three vertical tick marks spaced evenly along its length. The tick marks are located at approximately 33%, 66%, and 90% of the staff's length, with a double bar line at the far right end.

12 $\frac{6}{8}$  A horizontal line representing a musical staff with three vertical tick marks spaced evenly along its length. The tick marks are located at approximately 33%, 66%, and 90% of the staff's length, with a double bar line at the far right end.

13 $\frac{3}{4}$  A horizontal line representing a musical staff with four vertical tick marks spaced evenly along its length. The tick marks are located at approximately 25%, 50%, 75%, and 90% of the staff's length, with a double bar line at the far right end.

14 $\frac{5}{8}$  A horizontal line representing a musical staff with four vertical tick marks spaced evenly along its length. The tick marks are located at approximately 25%, 50%, 75%, and 90% of the staff's length, with a double bar line at the far right end.

15 $\frac{3}{8}$  A horizontal line representing a musical staff with seven vertical tick marks spaced evenly along its length. The tick marks are located at approximately 14%, 28%, 42%, 56%, 70%, 84%, and 90% of the staff's length, with a double bar line at the far right end.
